# Introduction

Governor Laura Kelly's office administers the Federal S.T.O.P. Violence Against Women Act grant program and provides grant funds to the Kansas Bureau of Investigation (KBI) to facilitate the data entry of the Kansas Standard Offense Reports and the Kansas Standard Arrest Reports relating to crimes of domestic violence, stalking, and sexual violence. This report is based on 2018 statistical data as submitted by Kansas law enforcement agencies. This report is intended to assist agencies in strengthening the criminal justice system which holds offenders accountable for their actions and provides resources to help respond to these crimes.

The KBI compiled the following report on domestic violence, stalking, and sexual violence statistics for 2018. The data represents the truest and most accurate information available, reflecting domestic violence, rape, stalking, sodomy, and sexual battery incidents as reported by law enforcement agencies through the Kansas Incident Based Reporting System (KIBRS). This system enables crime information from standard offense and arrest reports to be obtained manually, electronically, and directly from Kansas law enforcement agencies.

This report does not claim to represent all domestic violence incidents, stalking offenses, or sexually violent incidents committed throughout the State of Kansas, as it is dependent on victims reporting crimes to law enforcement agencies and for these agencies to submit incident reports to the KBI. Only domestic violence, stalking, and sexually violent incident and arrest reports that were submitted to the KBI were counted for this report.

Since 1992, all Kansas law enforcement agencies have been required to make mandatory arrests for domestic violence incidents when there is probable cause that a crime was committed. Officers also are required to fill out a Kansas Standard Offense report for every domestic violence incident, whether or not an arrest was made. Each law enforcement agency is required to have a written policy describing its protocol for addressing domestic violence incidents.

Effective in July of 2011, the state legislature passed a bill creating a universal definition for domestic violence incidents. This definition is to be used by all Kansas law enforcement agencies. The new definition can be found on page seven of this publication.

## **OFFENSES**

The domestic violence section of this report includes, but is not limited to, offenses that involve: murder, assault, aggravated assault, assault on a law enforcement officer, aggravated assault on a law enforcement officer, battery, aggravated battery, battery on a law enforcement officer, aggravated battery on a law enforcement officer, rape, theft, unlawful deprivation of property, burglary, and aggravated burglary. Some of these offenses may not meet the definition of domestic violence but are included because they were additional offenses within an incident that involved a domestic violence offense.

## **DUAL ARRESTS**

The domestic violence section of this report includes "dual arrests" which refers to cases where more than one person was arrested for the same domestic violence incident. In a number of cases, this is the result of an incident where the primary aggressor cannot be determined so both parties involved are arrested. There also may be a number of cases in which multiple arrests were made at the incident because a third party may have intervened. Because of this "dual arrest" procedure, some agencies have reported more arrests than incidents in a particular year. By factoring in dual arrests, a more accurate arrest percentage can be reported.

# Introduction

## **CLEARANCES VS ARRESTS**

There are several references to arrest rates throughout this publication. Exceptional clearances are methods to close a case, other than with an arrest. Examples of an exceptional clearance are: death of the offender, when a victim refuses to testify, when extradition is denied, when prosecution is denied, or when a juvenile is released to a parent. Therefore, agencies may have cleared a case even without an arrest.

## **TABLES AND GRAPHS**

Several tables and graphs regarding domestic violence, stalking, and sexually violent crimes, as well as victim and offenders, are included in this report. Some domestic violence, stalking, and sexually violent incidents may have had more than one offense, victim, offender, type of weapon, or victim-offender relationship. Some reports were not filled out completely, making detailed information on the incident unknown or unavailable. With this in mind, not all totals for each section will always match.

In order to present the most accurate representation of domestic violence, stalking, and sexual violence, without misinterpreting the data, the information for this report was recorded as it was reported to the KBI by law enforcement agencies as of July 30, 2019.

## **ROUNDING**

The percentage totals on some tables may not always equal 100% due to rounding.

## **AGENCIES NOT REPORTING COMPLETE DATA**

This report distinguishes between agencies who have sent no data and those who have sent incomplete data. If an agency submits offense reports for 2 months or less in the year, they are listed as not having submitted data. If an agency submits offense reports for 9 months or less in the year, they are listed as did not submit complete data.

## **RAPE DEFINITION**

In 2013, the Federal Bureau of Investigation changed their definition of rape to include sodomy. This report continues to use the historical definition as defined on page 57. However, separate sections have been included for criminal sodomy and sexual assault.

## **DATA GROUPING DEFINITIONS**

Some fields have been combined within charts in order to show a more statistically relevant view of detailed data. These groupings use the following definitions:

Significant other - spouse, ex-spouse, common law spouse, boyfriend/girlfriend, ex-boyfriend/girlfriend, and homosexual relationship

Family Member - parent, child, sibling, grandparent, grandchild, in-law, step and foster parent/child/sibling, other family member, child of boyfriend/girlfriend, victim was boyfriend/girlfriend of suspect's parent

Other known - acquaintance, friend, roommate, neighbor, babysittee, employer, employee, co-worker, and otherwise known

Open area - parking lot/garage, street, alley, highway, rural road, vacant lot, park building/shelter, open area, lake/waterway, recreational facility, and car wash

Hospitality - tavern/bar, restaurant, hotel/motel/inn, and casino

Workplace - employee, employer, co-worker

Time of Day - Day=6am to 2pm, Evening=2pm to 10pm, Night=10pm to 6am

Type of Injury - Major- all injuries not listed as apparent minor injury or none

# Domestic Violence

In 1991, the Kansas Legislature enacted mandates that required all Kansas law enforcement agencies to adopt written policies regarding their procedures for responding to domestic violence incidents within their jurisdictions. Each law enforcement policy must include a directive that officers who have probable cause that a crime was committed at a domestic violence incident “shall make an arrest.” All standard offense reports were required to be submitted to the Kansas Bureau of Investigation (KBI) beginning in January 1992, whether or not an arrest was made. Since this legislative action, Kansas law enforcement agencies have increased arrest rates for domestic violence related crimes from 37.1 percent in 1992 to 49.9 percent in 2018.

Victim and offender characteristics for domestic violence have not changed drastically. Still, the average victim is a white female between the ages of 20 and 34. The average offender is a white male between the ages of 20 and 34 and is most often the spouse, boyfriend/girlfriend, or former boyfriend/girlfriend of the victim. Saturdays and Sundays are the two days when domestic violence incidents are most likely to occur. Most incidents occur between the hours of 10:00 a.m. and noon or between 12:00 a.m. and 2:00 a.m.

Domestic violence can be defined as any verbal and/or physical abuse ranging from simple assault to murder. In 2018, 53.7 percent of all domestic violence incidents involved the criminal offense of battery. Battery is defined as “*intentionally or recklessly causing bodily harm to another person or intentionally causing physical contact with another person when done in a rude, insulting or angry manner.*” In 2001, the Kansas Legislature enacted the “*domestic battery*” statute which is “(1) *intentionally or recklessly causing bodily harm by a family or household member against a family or household member; or (2) intentionally causing physical contact with a family or household member by a family or household member when done in a rude, insulting or angry manner.*”

Most domestic violence offenders use some type of bodily force against their victims and most use their hands, fists, or feet as personal weapons. An incident of domestic violence most often occurs at home. Almost half (46.4 percent) of all victims receive physical injuries severe enough to cause visible abrasions.

"Domestic violence" means an act or threatened act of violence against a person with whom the offender is involved or has been involved in a dating relationship, or an act or threatened act of violence against a family or household member by a family or household member. Domestic violence also includes any other crime committed against a person or against property, or any municipal ordinance violation against a person or against property, when directed against a person with whom the offender is involved or has been involved in a dating relationship or when directed against a family or household member by a family or household member. For the purposes of this definition:

(1) "Dating relationship" means a social relationship of a romantic nature. In addition to any other factors the court deems relevant, the trier of fact may consider the following when making a determination of whether a relationship exists or existed: nature of the relationship, length of time the relationship existed, frequency of interaction between the parties, and time since termination of the relationship, if applicable.

(2) "Family or household member" means persons 18 years of age or older who are spouses, former spouses, parents or stepparents and children or stepchildren, and persons who are presently residing together or have resided together in the past, and persons who have a child in common regardless of whether they have been married or have lived together at any time. Family or household member also includes a man and woman if the woman is pregnant and the man is alleged to be the father, regardless of whether they have been married or have lived together at any time.

# Kansas Domestic Violence Incident and Arrest Trend

YEAR	NUMBER OF INCIDENTS	PERCENT OF CHANGE	INCIDENTS PER / 1,000 POPULATION	NUMBER OF INCIDENTS WITH ARRESTS

# Kansas Domestic Violence Homicide Trend

The following chart indicates the number of domestic violence homicides that occurred in Kansas between 1998 - 2018. The victims included are spouses, former spouses, persons in intimate relationships whether on-going or in the past, and persons 18 years of age or older who are blood or step-related to one another.

Starting in 1999, only adults who have been killed in a domestic violence situation are reported in this statistical information. Cases involving children are reviewed by the State Child Death Review Board (SCDRB) and statistical information can be found in the SCDRB report at [www.ksag.org](http://www.ksag.org).

# Domestic Violence Crime Clock 2018

One  
Domestic Violence  
Murder Occurred  
every 9 Days, 20 Hours, 45  
Minutes, 27 seconds

One  
Domestic Violence  
Incident Occurred  
Every 21 Minutes, 50 Seconds

Law Enforcement  
Made One Domestic  
Violence Arrest  
Every 43 Minutes,  
48 Seconds

These crime clocks should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual crime experience by showing the relative frequency of occurrence of crime incident. This mode of display should not be taken to imply a regularity in the commission of these incidents; rather, it represents the annual ratio of crime to fixed time intervals.

- 1) Data collected is based on information entered into KIBRS by July 30, 2019.
- 2) Agency went to covered by status where reports are submitted through another agency.
- 3) Agency submitted incomplete data for the current year.
- 4) Agency did not report minimum of 3 months data for the current year.
- 5) Agency reported summary data for 2018. Summary data is an aggregate count of offenses and arrests as counted by the individual agency.
- 6) Tribal Police only submit reports for crimes involving non-tribe members.

# Protection from Abuse Act

## K.S.A. 60-3101 through 60-3112

The Kansas Legislature created the Protection from Abuse Act (PFA) in 1979. According to the statute, *“this act shall be liberally construed to promote the protection of victims of domestic violence from bodily injury or threats of bodily injury and to facilitate access to judicial protection for the victims, whether represented by counsel or proceeding pro se.”*

A protection order is a court order for the purpose of preventing further violent or threatening behavior. The PFA instructs a specific individual to refrain from having contact with another individual. Any district court shall have jurisdiction over the proceedings in obtaining an order. A person who is seeking relief under this act may obtain a petition from the clerk of the district court or from a domestic violence program.

A person seeking relief under this act must have lived with the abuser either presently or in the past or have a child in common. A parent or an adult residing with a minor child may seek a petition on behalf of the minor child. As of July 1, 2002, persons in dating relationships also can apply for a protection order. Once an order is filed with the court a temporary order is issued and a hearing is set within 20 days. The final order can be issued for up to one year. No more than two orders can be filed within one year.

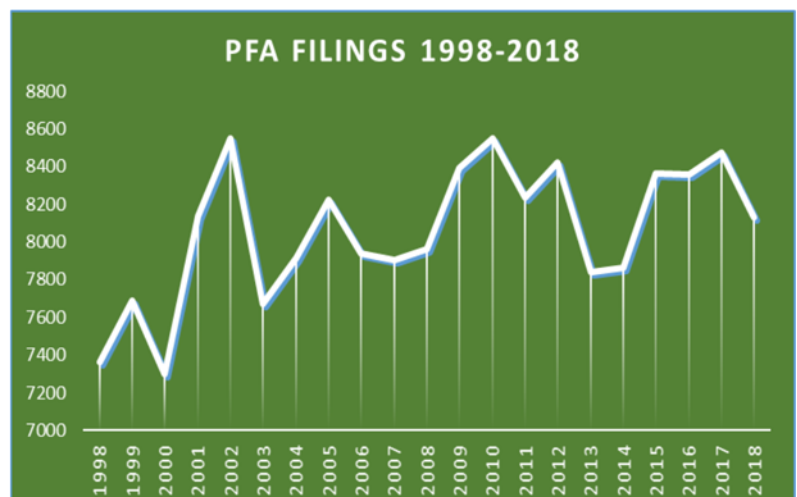

The 2006 Kansas Legislature passed two bills designed to assist those in need of protective orders. The first bill fills the gap of previous statutes and considers a violation of the PFA act to make contact while incarcerated. The second, took effect January 1, 2007, and allows persons attempting to escape a domestic violence situation to obtain a confidential address from the Secretary of State’s office to use as a substitute legal mailing address.

All temporary, amended, and final PFA orders are entered into the National Crime Information Center (NCIC) Protection Order File. This database is another tool to assist law enforcement officers in verifying the existence of an order quickly in order to provide better enforcement. However, an order does not need to be entered into NCIC in order to be enforced.

The following information reflects the number of PFA orders filed with Kansas district courts and reported to the Kansas Office of Judicial Administration.

## PFA Filings

Year	Filings	Percent of Change
1998	7,361	-7.6%
1999	7,691	4.5%
2000	7,300	5.1%

# Protection From Stalking Act

## K.S.A. 60-31a01 through 60-31a09

The Kansas Legislature created the Protection from Stalking Act (PFS) during the 2002 session. The statute is to be “*liberally construed to protect victims of stalking and to facilitate access to judicial protection for stalking victims, whether represented by counsel or proceedings pro se.*” The PFS allows the court to refrain a defendant from harassing, telephoning, contacting, or otherwise communicating with the victim. A Protection From Stalking Order is a court order for the purpose of preventing stalking behavior against the victim. A person seeking relief under this act may obtain an order from the clerk of the district court in the county where the stalking occurred. Once an order is filed with the court a temporary order is issued and a hearing is set within 20 days. A final order may be issued for a period of one year. However, “*upon motion by the plaintiff, such a period may be extended for an additional year.*”

The following information reports the number of PFS orders filed with Kansas district courts and reported to the Kansas Office of Judicial Administration.

## Protection From Stalking Orders Number of Court Filings 2003-2018

YEAR	PFA Filings	Percent of Change
2003	2,577

# Stalking

Stalking is unlike any other person crime, not only in its general characteristics, but also in the impact it has on the daily lives of victims. Many people do not take the crime of stalking seriously, while others blame the victim. Stalking is an exercise of control and power over another individual or group. The variation in stalking behavior ranges from hang-up phone calls to more direct threats toward a victim. The likelihood of injury increases when the stalking behavior escalates over time.

In 2008, the Kansas Legislature amended the definition of Stalking. This statutory change was reflected in the large increase of offenses reported since 2009.

Stalking is defined as:

(1) *“Intentionally or recklessly engaging in a course of conduct targeted at a specific person which would cause a reasonable person in the circumstances of the targeted person to fear for such person’s safety, or the safety of a member of such person’s immediate family and the targeted person is actually placed in such fear; or*

*(2) intentionally engaging in a course of conduct targeted at a specific person which the individual knows will place the targeted person in fear for such person’s safety or the safety of a member of such person’s immediate family; or*

*(3) after being served with, or otherwise provided notice of, any protective order included in K.S.A. 21-3843, prior to its repeal or K.S.A. 2011 Supp. 21-5924, and amendments thereto, that prohibits contact with a targeted person, recklessly engaging in at least one act listed in subsection (f)(1) that violates the provisions of the order and would cause a reasonable person to fear for such person's safety, or the safety of a member of such person's immediate family and the targeted person is actually placed in such fear.*

YEAR	Offenses	Percent Change
2005	242	-12.0%

## Stalking: Time of Incident 3yr Trend

# Rape

## Rape: K.S.A. 21-5503

The Kansas rape statute does not distinguish the gender of a rape victim, therefore, rapes involving both male and female victims were reported by law enforcement agencies.

K.S.A. 21-5503, (a) Rape is:

(1) Knowingly engaging in sexual intercourse with a victim who does not consent to the sexual intercourse under any of the following circumstances:

- (A) When the victim is overcome by force or fear; or
- (B) when the victim is unconscious or physically powerless;

(2) Knowingly engaging in sexual intercourse with a victim when the victim is incapable of giving consent because of mental deficiency or disease, or when the victim is incapable of giving consent because of the effect of any alcoholic liquor, narcotic, drug or other substance, which condition was known by the offender or was reasonably apparent to the offender;

(3) sexual intercourse with a child who is under 14 years of age;

(4) sexual intercourse with a victim when the victim's consent was obtained through a knowing misrepresentation made by the offender that the sexual intercourse was a medically or therapeutically necessary procedure; or

(5) sexual intercourse with a victim when the victim's consent was obtained through a knowing misrepresentation made by the offender that the sexual intercourse was a legally required procedure within the scope of the offender's authority.

The number of rapes reported to Kansas law enforcement increased by 8.9 percent in 2018 from the number reported in 2017. During 2018, approximately 16.0 percent of all reported rape incidents in Kansas were cleared by an arrest, up from 13.2 percent that were cleared for the same time period in 2017. This is an arrest rate, not a clearance rate. Some cases may have been cleared by exceptional means (ex: death of offender or victim refusing to testify). This is still a small portion of rape offenders when one considers that 81.2 percent of the offenders were known to the victim.

Of the rape incidents reported to law enforcement agencies, the rape victim is usually a white (84.2%) female (96.7%) less than 25 years of age (59.2%). The rape offender is most often a white (66.8%) male (92.6%) between the ages of 15 and 29 (41.0%). The crime of rape is spread out relatively even throughout the week with Mondays being the highest at 17.5 percent. Most rapes occur between the hours of midnight and 2:00 a.m.

## Rape Offenses Reported: Trend

\* No data was received from Lawrence PD, Kansas City Kansas PD, or Topeka PD in 2001

# Rape Crime Clock

These crime clocks should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual crime experience by showing the relative frequency of occurrence of crime incident. This mode of display should not be taken to imply a regularity in the commission of these incidents; rather, it represents the annual ratio of crime to fixed time intervals.

- 1) Data collected are based on information entered into KIBRS by July 30, 2019
- 2) Agency went to covered by status
- 3) Agency submitted incomplete data for the current year
- 4) Agency did not report any data or submit zero reports for the current year
- 5) Agency reported summary data for 2018. Summary data is an aggregate count of offenses and arrests as counted by the individual agency.
- 6) University population totals are taken from the fall headcount as reported by the Kansas Board of Regents
- 7) Due to the unique nature of Wyandotte County's merged government the population number does not accurately portray incidents per 1,000
- 8) County population totals may include agencies not listed that had no rapes to report the past three years

## Rape: Time of Incident 3yr Trend

# Criminal Sodomy

## Criminal Sodomy: K.S.A. 21-5504

The Kansas criminal sodomy statute does not distinguish the gender of a sodomy victim, therefore, offenses involving both male and female victims were reported by law enforcement agencies.

K.S.A. 21-5504, (a) Criminal sodomy is:

- (1) Sodomy between persons who are 16 or more years of age and members of the same sex;
- (2) sodomy between a person and an animal;
- (3) sodomy with a child who is 14 or more years of age but less than 16 years of age; or
- (4) causing a child 14 or more years of age but less than 16 years of age to engage in sodomy with any person or animal.

(b) Aggravated criminal sodomy is:

- (1) Sodomy with a child who is under 14 years of age;
- (2) causing a child under 14 years of age to engage in sodomy with any person or an animal; or
- (3) sodomy with a victim who does not consent to the sodomy or causing a victim, without the victim's consent, to engage in sodomy with any person or an animal under any of the following circumstances:
  - (A) When the victim is overcome by force or fear;
  - (B) when the victim is unconscious or physically powerless; or
  - (C) when the victim is incapable of giving consent because of mental deficiency or disease, or when the victim is incapable of giving consent because of the effect of any alcoholic liquor, narcotic, drug or other substance, which condition was known by, or was reasonably apparent to, the offender.

After a 17.3% decrease in 2016, the number of criminal sodomy offenses reported to Kansas law enforcement increased 5.1% in 2017, and 4.2% in 2018.

Of the incidents reported to law enforcement agencies, the sodomy victim is usually a white (89.4%) female (62.0%) less than 20 years of age (69.4%). The criminal sodomy offender is most often a white (81.9%) male (87.8%) between the ages of 10 and 24 (50.6%). The crime of sodomy does not appear to be more predominant on any certain day. Most sodomy offenses occur between the hours of midnight and 2:00 a.m.

# Criminal Sodomy Trends 2003-2018

## Criminal Sodomy Trends 2003-2018

YEAR	Offenses	Percent of Change	YEAR	Offenses	Percent of Change

## Criminal Sodomy Offenses Reported: Trend

# Criminal Sodomy Crime Clock

These crime clocks should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual crime experience by showing the relative frequency of occurrence of crime incident. This mode of display should not be taken to imply a regularity in the commission of these incidents; rather, it represents the annual ratio of crime to fixed time intervals.

# Sexual Battery

## **Sexual Battery: K.S.A. 21-5505 thru 21-5506**

K.S.A. 21-5505, (a) Sexual battery is the touching of a victim who is not the spouse of the offender, who is 16 or more years of age and who does not consent thereto, with the intent to arouse or satisfy the sexual desires of the offender or another.

(b) Aggravated sexual battery is the touching of a victim who is 16 or more years of age and who does not consent thereto with the intent to arouse or satisfy the sexual desires of the offender or another and under any of the following circumstances:

- (1) When the victim is overcome by force or fear;
- (2) when the victim is unconscious or physically powerless; or
- (3) when the victim is incapable of giving consent because of mental deficiency or disease, or when the victim is incapable of giving consent because of the effect of any alcoholic liquor, narcotic, drug or other substance, which condition was known by, or was reasonably apparent to, the offender.

After several years of declines, sexual batteries reported to Kansas law enforcement increased 2.8 percent in 2017 from the number reported in 2016 and increased 18.7% in 2018 from the number reported in 2017.

Of the sexual battery incidents reported to law enforcement agencies, the victim is usually a white (86.2%) female (83.1%) less than 20 years of age (76.7%). The sexual battery offender is most often a white (74.5%) male (88.8%) between the ages of 15 and 19 (36.1%). The crime of sexual battery occurs in almost identical numbers each day of the week. Most sexual batteries occur either between the hours of midnight and 2:00 a.m. or between 8:00 a.m. and 10:00 a.m.

# Sexual Battery Trends 2003-2018

## Sexual Battery Trends 2003-2018

YEAR	Offenses	Percent of Change	YEAR	Offenses	Percent of Change
2003	1,865		2011	1,710	-2.1%

2010	1,747	1.7%	2018	1,618	18.7%

## Sexual Battery Offenses Reported: Trend

# Sexual Battery Crime Clock

These crime clocks should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual crime experience by showing the relative frequency of occurrence of crime incident. This mode of display should not be taken to imply a regularity in the commission of these incidents; rather, it represents the annual ratio of crime to fixed time intervals.

## Resources for Victims

**If you are in immediate danger or a threatening situation, please call 911.**

- **Attorney General's Office - Victims' Services Division: 1-800-828-9745**
- **The Kansas Crisis Hotline: 1-888-END-ABUSE (1-888-363-2287)** is a toll-free, 24-hour statewide crisis hotline developed to link victims of domestic violence, sexual assault, and stalking to crisis programs across Kansas.

The Hotline offers:

- Confidential, non-judgmental support
  - Crisis intervention to help you identify problems and possible solutions, including safety plans for emergencies
  - Referral to community programs or women's shelters for long term support
  - Information about domestic violence, sexual assault, stalking, child abuse, and prevention programs
- **Kansas Coalition Against Sexual and Domestic Violence (KCSDV)** is a network of statewide advocacy programs whose primary goals are the prevention and elimination of sexual and domestic violence through a network of programs providing support and safety for all victims of sexual and domestic violence and stalking, with primary focus on women and their children; direct services; public awareness and education; advocacy for victims; comprehensive prevention; and social change efforts.  
[www.kcsdv.org](http://www.kcsdv.org)
