# Introduction

Governor Sam Brownback's office administers the Federal S.T.O.P. Violence Against Women Act grant program and provides grant funds to the Kansas Bureau of Investigation (KBI) to facilitate the data entry of the Kansas Standard Offense Reports and the Kansas Standard Arrest Reports relating to crimes of domestic violence and rape. This report is based on 2014 statistical data as submitted by Kansas law enforcement agencies. This report is intended to assist agencies in strengthening the criminal justice system which holds offenders accountable for their actions and provides resources to help respond to these crimes.

The KBI compiled the following report on domestic violence, stalking, and rape statistics for 2014. The data represents the truest and most accurate information available, reflecting domestic violence and rape as reported by law enforcement agencies through the Kansas Incident Based Reporting System (KIBRS). This system enables crime information from standard offense and arrest reports to be obtained manually, electronically, and directly from Kansas law enforcement agencies.

This report does not claim to represent all domestic violence incidents, stalking offenses, or rapes committed throughout the State of Kansas, as it is dependent on victims to report crimes to law enforcement agencies and for these agencies to submit incident reports to the KBI. Only domestic violence, stalking, and rape incident and arrest reports that were submitted to the KBI were counted for this report.

Since 1992, all Kansas law enforcement agencies have been required to make mandatory arrests for domestic violence incidents when there is probable cause that a crime was committed. Officers also are required to fill out a KIBRS report for every domestic violence incident, whether or not an arrest was made. Each law enforcement agency is required to have a written policy describing its protocol for addressing domestic violence incidents.

Effective in July of 2011, the state legislature passed a bill creating a universal definition for domestic violence incidents. This definition is to be used by all Kansas law enforcement agencies. The new definition can be found on page 6 of this publication.

## OFFENSES

The domestic violence section of this report includes, but is not limited to, offenses that involve: murder, assault, aggravated assault, assault on a law enforcement officer, aggravated assault on a law enforcement officer, battery, aggravated battery, battery on a law enforcement officer, aggravated battery on a law enforcement officer, rape, theft, unlawful deprivation of property, burglary, and aggravated burglary. The statutes listed in the report may not include all domestic violence related crimes, but it does include the majority.

## DUAL ARRESTS

The domestic violence section of this report includes "dual arrests" which refers to cases where more than one person was arrested for the same domestic violence incident. In a number of cases, this is the result of an incident where the primary aggressor cannot be determined so both parties involved are arrested. There also may be a number of cases in which multiple arrests were made at the incident because a third party may have intervened. Because of this "dual arrest" procedure, some agencies have reported more arrests than incidents in a particular year. By factoring in dual arrests, a more accurate arrest percentage can be reported.

# Introduction

## CLEARANCES VS ARRESTS

There are several references to arrest rates throughout this publication. Exceptional clearances are ways to close a case other than an arrest. Examples of an exceptional clearance are: death of the offender, victim refuses to testify, extradition denied, prosecution denied, or juvenile released to parent. Please keep these in mind when viewing arrest rates as clearance rates could be higher.

## TABLES AND GRAPHS

Several tables and graphs regarding domestic violence, stalking, and rape crimes, as well as victim and offenders, are included in this report. Some domestic violence, stalking, and rape incidents may have had more than one offense, victim, offender, type of weapon, or victim-offender relationship. Some KIBRS reports were not filled out completely, making detailed information on the incident unknown or unavailable. With this in mind, not all totals for each section will always match.

In order to present the most accurate representation of domestic violence, stalking, and rape, without misinterpreting the data, the information for this report was recorded as it was reported to the KBI by law enforcement agencies as of June 30, 2015.

Hopefully law enforcement agencies, domestic violence programs, and sexual assault centers across the State of Kansas will work together to develop effective policies, procedures, and training activities to assist those involved in responding to the crimes of domestic violence, stalking, and rape.

## AGENCIES NOT REPORTING COMPLETE DATA

If an agency does not submit a minimum of three months data a “DNR” (did not report) is indicated. If an agency does not report complete data (minimum of 10 months data), the data is included but the agency is flagged to recognize this discrepancy. This change will more accurately depict the true activity within each agency and county. Data is listed as questionable when a large decline in submissions occurs without confirmation by the local agency.

## RAPE DEFINITION

In 2013, the Federal Bureau of Investigation changed their definition of rape to include sodomy and sexual assaults. This report continues to use the historical definition.

# Domestic Violence

In 1991, the Kansas Legislature enacted mandates that required all Kansas law enforcement agencies to adopt written policies regarding their procedures for responding to domestic violence incidents within their jurisdictions. Each law enforcement policy must include a directive that officers who have probable cause that a crime was committed at a domestic violence incident “shall make an arrest.” All standard offense reports were required to be submitted to the Kansas Bureau of Investigation (KBI) beginning in January 1992, whether or not an arrest was made. Since this legislative action, Kansas law enforcement agencies have increased arrest rates for domestic violence related crimes from 37.1 percent in 1992 to 54.4 percent in 2014.

Victim and offender characteristics for domestic violence have not changed drastically. Still, the average victim is a white female between the ages of 20 and 29. The average offender is a white male between the ages of 20 and 29 and is most often the spouse or boyfriend/girlfriend of the victim. Saturdays and Sundays are the two days when domestic violence incidents are most likely to occur. Most incidents occur between the hours of 8:00 p.m. and 2:00 a.m.

Domestic violence can be defined as any verbal and/or physical abuse ranging from simple assault to murder. More than 54 percent of all domestic violence incidents involve the criminal offense of battery. Battery is defined as *“intentionally or recklessly causing bodily harm to another person or intentionally causing physical contact with another person when done in a rude, insulting or angry manner.”* In 2001, the Kansas Legislature enacted the *“domestic battery”* statute which is *“(1) intentionally or recklessly causing bodily harm by a family or household member against a family or household member; or (2) intentionally causing physical contact with a family or household member by a family or household member when done in a rude, insulting or angry manner.”*

Most domestic violence offenders use some type of bodily force against their victims and most use their hands, fists, or feet as personal weapons. An incident of domestic violence most often occurs at home. Almost half (47.1 percent) of all victims receive physical injuries severe enough to cause visible abrasions.

"Domestic violence" means an act or threatened act of violence against a person with whom the offender is involved or has been involved in a dating relationship, or an act or threatened act of violence against a family or household member by a family or household member. Domestic violence also includes any other crime committed against a person or against property, or any municipal ordinance violation against a person or against property, when directed against a person with whom the offender is involved or has been involved in a dating relationship or when directed against a family or household member by a family or household member. For the purposes of this definition:

(1) "Dating relationship" means a social relationship of a romantic nature. In addition to any other factors the court deems relevant, the trier of fact may consider the following when making a determination of whether a relationship exists or existed: nature of the relationship, length of time the relationship existed, frequency of interaction between the parties and time since termination of the relationship, if applicable.

(2) "Family or household member" means persons 18 years of age or older who are spouses, former spouses, parents or stepparents and children or stepchildren, and persons who are presently residing together or have resided together in the past, and persons who have a child in common regardless of whether they have been married or have lived together at any time. Family or household member also includes a man and woman if the woman is pregnant and the man is alleged to be the father, regardless of whether they have been married or have lived together at any time.

# Kansas Domestic Violence Homicide Trend

The following chart indicates the number of domestic violence homicides that occurred in Kansas between 1993 - 2014. The victims included are spouses, former spouses, persons in intimate relationships whether ongoing or in the past, and persons 18 years of age or older who are blood or step-related to one another.

Starting in 1999, only adults who have been killed in a domestic violence situation are reported in this statistical information. Cases involving children are reviewed by the State Child Death Review Board (SCDRB) and statistical information can be found in the SCDRB report at [www.ksag.org](http://www.ksag.org).

# Protection from Abuse Act

## K.S.A. 60-3101 through 60-3112

The Kansas Legislature created the Protection from Abuse Act (PFA) in 1979. According to the statute, "*this act shall be liberally construed to promote the protection of victims of domestic violence from bodily injury or threats of bodily injury and to facilitate access to judicial protection for the victims, whether represented by counsel or proceeding pro se.*"

A protection order is a court order for the purpose of preventing further violent or threatening behavior. The PFA instructs a specific individual to refrain from having contact with another individual. Any district court shall have jurisdiction over the proceedings in obtaining an order. A person who is seeking relief under this act may obtain a petition from the clerk of the district court or from a domestic violence program.

A person seeking relief under this act must have lived with the abuser either presently or in the past or have a child in common. A parent or an adult residing with a minor child may seek a petition on behalf of the minor child. As of July 1, 2002, persons in dating relationships also can apply for a protection order. Once an order is filed with the court a temporary order is issued and a hearing is set within 20 days. The final order can be issued for up to one year. No more than two orders can be filed within one year.

The 2006 Kansas Legislature passed two bills designed to assist those in need of protective orders. The first bill fills the gap of previous statutes and considers a violation of the PFA act to make contact while incarcerated. The second, took effect January 1, 2007, and allows persons attempting to escape a domestic violence situation to obtain a confidential address from the Secretary of State's office to use as a substitute legal mailing address.

All temporary, amended and final PFA orders are entered into the National Crime Information Center (NCIC) Protection Order File. This database is another tool to assist law enforcement officers in verifying the existence of an order quickly in order to provide better enforcement. However, an order does not need to be entered into NCIC in order to be enforced.

The following information reflects the number of PFA orders filed with Kansas district courts and reported to the Kansas Office of Judicial Administration.

# Protection From Stalking Act

## K.S.A. 60-31a01 through 60-31a09

The Kansas Legislature created the Protection from Stalking Act (PFS) during the 2002 session. The statute is to be “*liberally construed to protect victims of stalking and to facilitate access to judicial protection for stalking victims, whether represented by counsel or proceedings pro se.*” The PFS allows the court to refrain a defendant from harassing, telephoning, contacting, or otherwise communicating with the victim. A Protection From Stalking Order is a court order for the purpose of preventing stalking behavior against the victim. A person seeking relief under this act may obtain an order from the clerk of the district court in the county where the stalking occurred. Once an order is filed with the court a temporary order is issued and a hearing is set within 20 days. A final order may be issued for a period of one year. However, “*upon motion by the plaintiff, such a period may be extended for an additional year.*”

The following information reports the number of PFS orders filed with Kansas district courts and reported to the Kansas Office of Judicial Administration.

# Stalking

Stalking is unlike any other person crime not only in its general characteristics, but also in the impact it has on the daily lives of victims. Many people do not take the crime of stalking seriously, while others blame the victim. Stalking is an exercise of control and power over another individual or group. The variation in stalking behavior ranges from hang-up phone calls to more direct threats toward a victim. The likelihood of injury increases when the stalking behavior escalates over time.

In 2008, the Kansas Legislature passed, and the Governor signed into law, Senate Bill 414 which expands the definition of Stalking under K.S.A. This is reflected in the large increase of offenses reported since 2009.

Stalking is defined as:

(1) “*Intentionally or recklessly engaging in a course of conduct targeted at a specific person which would cause a reasonable person in the circumstances of the targeted person to fear for such person’s safety, or the safety of a member of such person’s immediate family and the targeted person is actually placed in such fear; or*

(2) *intentionally engaging in a course of conduct targeted at a specific person which the individual knows will place the targeted person in fear for such person’s safety or the safety of a member of such person’s immediate family; or*

(3) *after being served with, or otherwise provided notice of, any protective order included in K.S.A. 21-3843, prior to its repeal or K.S.A. 2011 Supp. 21-5924, and amendments thereto, that prohibits contact with a targeted person, recklessly engaging in at least one act listed in subsection (f)(1) that violates the provisions of the order and would cause a reasonable person to fear for such person’s safety, or the safety of a member of such person’s immediate family and the targeted person is actually placed in such fear.*

# RAPE

## Rape: K.S.A. 21-5503

The Kansas rape statute does not distinguish the gender of a rape victim, therefore, rapes involving both male and female victims were reported by law enforcement agencies.

K.S.A. 21-5503, (a) Rape is:

- (1) Knowingly engaging in sexual intercourse with a victim who does not consent to the sexual intercourse under any of the following circumstances:
  - (A) When the victim is overcome by force or fear; or
  - (B) when the victim is unconscious or physically powerless;
- (2) Knowingly engaging in sexual intercourse with a victim when the victim is incapable of giving consent because of mental deficiency or disease, or when the victim is incapable of giving consent because of the effect of any alcoholic liquor, narcotic, drug or other substance, which condition was known by the offender or was reasonably apparent to the offender;
- (3) sexual intercourse with a child who is under 14 years of age;
- (4) sexual intercourse with a victim when the victim's consent was obtained through a knowing misrepresentation made by the offender that the sexual intercourse was a medically or therapeutically necessary procedure; or
- (5) sexual intercourse with a victim when the victim's consent was obtained through a knowing misrepresentation made by the offender that the sexual intercourse was a legally required procedure within the scope of the offender's authority.

After several declining years, the number of rapes reported to Kansas law enforcement increased 6.3 percent in 2014 from the number reported in 2013. During 2014, approximately 19.8 percent of all reported rape incidents in Kansas were cleared by an arrest, down from 20.0 percent that were cleared for the same time period in 2013. This is an arrest rate, not a clearance rate. Some cases may have been cleared by exceptional means (ex: death of offender or victim refusing to testify). This is still a small portion of rape offenders when one considers that 80.3 percent of the offenders were known to the victim.

Of the rape incidents reported to law enforcement agencies, the rape victim is usually a white (87.0%) female (97.6%) less than 25 years of age (66.4%). The rape offender is most often a white (68.9%) male (92.5%) between the ages of 15 and 29 (46.8%). The crime of rape most frequently occurs during the weekend. Most rapes occur between the hours of midnight and 2:00 a.m.

# RAPE Crime Clock

These crime clocks should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual crime experience by showing the relative frequency of occurrence of crime incident. This mode of display should not be taken to imply a regularity in the commission of these incidents; rather, it represents the annual ratio of crime to fixed time intervals.

## Resources for Victims

If you are in immediate danger or a threatening situation, please call 911.

- Attorney General's Office - Victims' Services Division: **1-800-828-9745**
- The Kansas Crisis Hotline: **1-888-END-ABUSE (1-888-363-2287)** is a toll-free, 24-hour statewide crisis hotline developed to link victims of domestic violence, sexual assault, and stalking to crisis programs across Kansas.

The Hotline offers:

  - Confidential, non-judgmental support
  - Crisis intervention to help you identify problems and possible solutions, including safety plans for emergencies
  - Referral to community programs or women's shelters for long term support
  - Information about domestic violence, sexual assault, stalking, child abuse, and prevention programs
- Kansas Coalition Against Sexual and Domestic Violence (KCSDV) is a network of statewide domestic violence and sexual assault advocacy programs whose primary goals are safety, accountability, and justice. [www.kcsdv.org](http://www.kcsdv.org)
